

SUSTAINABILITY MISSION 2025

BEELINE GROUP

POLLUTION
act as an industry leader in implementing a more sustainable chemical management

RESOURCES
increase recycled content and identify potentials for more sustainable materials

MATERIALITY
build our Sustainability Mission on an assessment of material topics

COMMUNICATIONS
enable consumers and partners to make more sustainable choices by communicating authentically and fact-based

REPORTING
achieve a CSRD compliant integrated business and sustainability report

CLIMATE PROTECTION
set and act on clear climate protection targets

RISK
manage sustainability risks and legal requirements within our business and supply chains

STAKEHOLDER
collaborate with internal and external stakeholders to achieve our sustainability goals

TRANSPARENCY
achieve supply chain transparency up to raw material level

BIODIVERSITY
achieve deforestation-free production chains for leather and wood-based materials

WATER
calculate a water footprint in order to identify potentials for resource protection

OWN WORKFORCE
create a safe, healthy and diversity-sensitive workplace

WORKERS
safeguard workers' rights and continually improve working conditions in the production chain

CONSUMERS
deliver safe-to-use products and achieve clarity regarding customer complaints
